## Foreword

This volume contains a first collection of the papers presented at the 2<sup>nd</sup> International Conference “Innovations and Creativity”. The conference was held during April 5–7, 2018, in Liepaja, Latvia.

The 1<sup>st</sup> international interdisciplinary conference “Innovation and Creativity” was organised on June 30 – July 1, 2016 at Liepaja University (Latvia) in collaboration with Rochester Institute of Technology (USA). The aim of the conference was to update interdisciplinary link between math and art in the 21<sup>st</sup> century, while in the second conference the most widely represented topics were connected to innovations in computer science, e-learning and application of IT to other areas of science.

The 2<sup>nd</sup> conference “Innovations and Creativity” was organised in in five sections:

- Innovations in Computer Science
- New technologies and approaches in education
- Advanced Technologies and their applications
- Mathematical modelling
- Creativity in math education

A selection of conference papers related to modern computing will be published in this and the next issue of the Baltic Journal of Modern Computing.
