Foreword

This volume contains papers presented at the 3rd International Conference “Innovations and Creativity”. The conference was held during June 6–8, 2019, in Liepaja, Latvia.

The 1st international interdisciplinary conference “Innovation and Creativity” was organised on June 30 – July 1, 2016 at Liepaja University (Latvia) in collaboration with Rochester Institute of Technology (USA). The aim of the conference was to update interdisciplinary link between math and art in the 21st century. The second conference “Innovation and Creativity” held on April 5-7, 2018, where the most widely represented topics were connected to innovations in computer science, e-learning and application of IT to other areas of science.

The 3rd conference “Innovations and Creativity” was organised in six sections:

- Computing
- Technologies in Education
- Mathematics
- Materials, Energy and Eco-sciences
- Environmental Science
- Art and Design

Here follows a selection of conference papers related to the subject areas covered by the BJMC.
